

Dart Warehouse Corporation

Fulfillment Excellence

Welcome to DART

DART is a closely held business specializing in warehousing and logistics management and has been providing supply chain value to customers since 1938.

In recent years, the company has evolved to embrace the needs for large scale fulfillment operations through dedicated centers capable of adapting to the diverse needs of servicing multiple client accounts and building on synergies that exist between them.

Our flexible facility offers

- High capacity pick and sortation for both inbound and outbound flow.
- WMS to control order flow, labor, and inventory accuracy.
- Stratified levels of automation.
- Seasoned, stable workforce and management team.
- Variety of communication methods.
- Customized access to information.
- Labor agility to respond to seasonality and/or spikes.
- Dynamic shipping compliance across multiple parcel carriers.
- Other value added services.

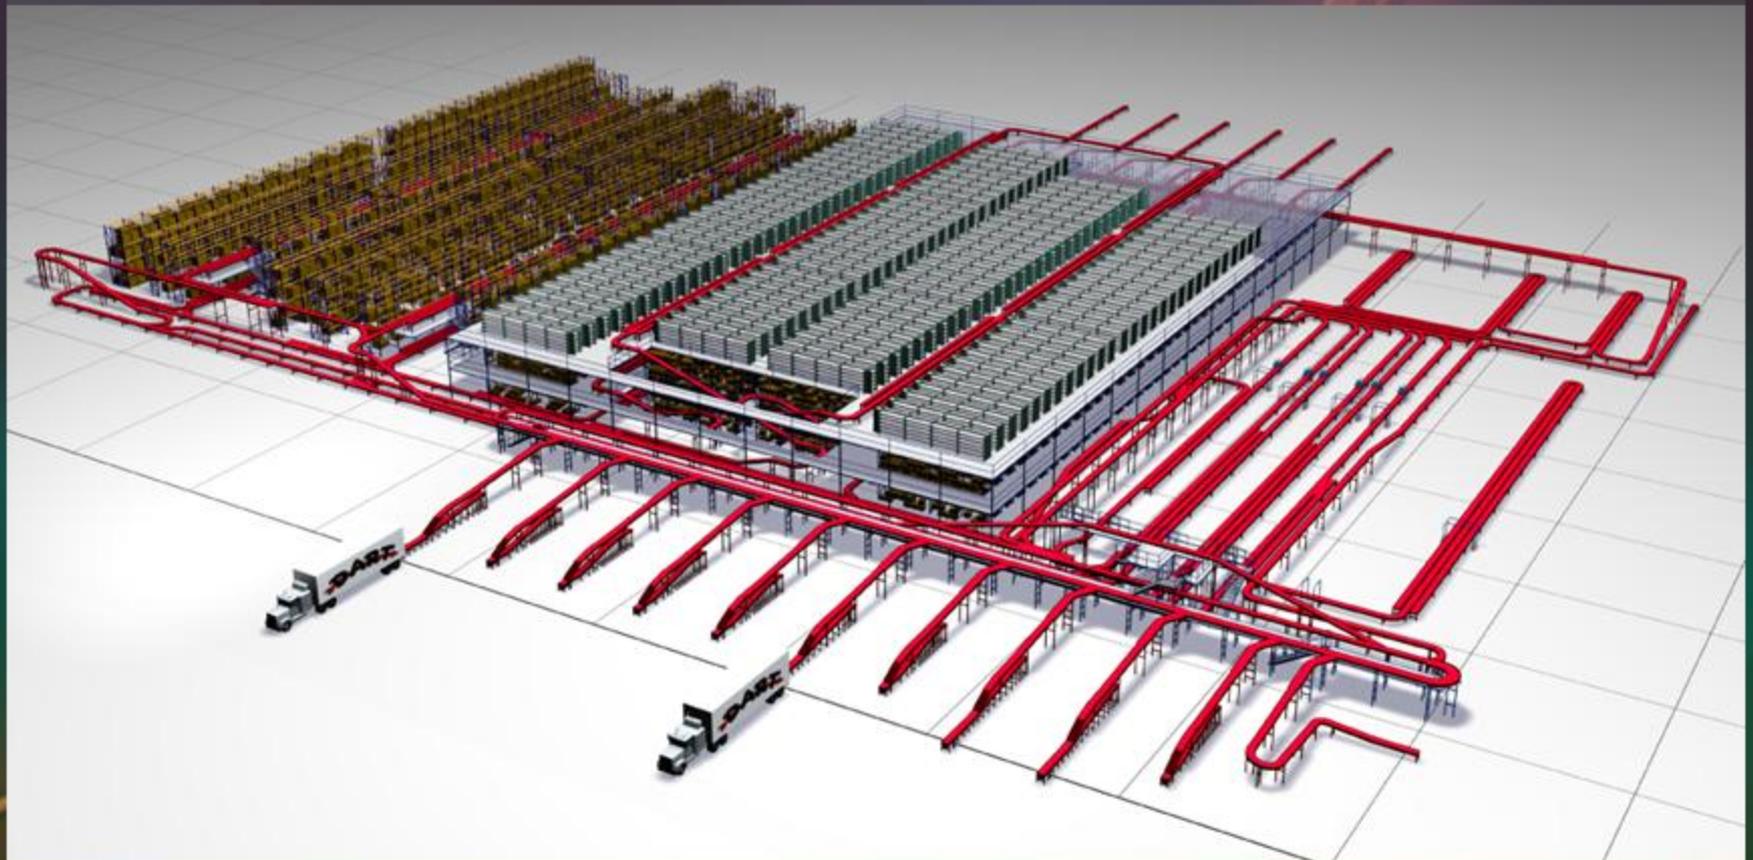

Recent addition of mezzanine binning maximizes density within an established conveyorized zone pickpath at DART's Midwest fulfillment facility.
